Performing Sacred Work Every Day

Dear valued patient:

The most valuable information that I need to properly take care of you is an accurate medication list. Therefore, I strongly urge you to bring all your **MEDICATION BOTTLES** with you each time you come for an office visit so we can compare it to our current list and make sure it is accurate. I must have a correct list of your medications, dosage, and the frequency in which you are taking these medications to care for you properly. I also need to be aware of any over-the-counter medications you are taking. As many patients see multiple physicians it is often possible you may be taking medications or had dosage changes that I am not aware of. In addition I request that you call us immediately with any change in your medications or medication dosages. Failure to comply with the above request could lead to serious errors in your treatment with the potential for significant morbidity and mortality. By signing below you attest that you have read and understand the potential seriousness of your noncompliance with this request.
